About Us

SESHAS'S
TEXTILES

COMPANY INTRODUCTION

With over **10+ years** of experience in the textile industry, **Seshas's Textiles**—founded by **Mr. K. M. Maariselvam**—has grown into a trusted and reputed name in the Indian textile manufacturing sector. Based in **Rajapalayam**, Tamil Nadu, we operate in one of South India's most prominent textile clusters, known for its heritage in cotton yarn and fabric production.

We specialize in **Open-End (OE) grey cotton yarn** ranging from **6s to 30s counts**. Our yarn is made using **100% cotton**, ensuring superior strength, softness, and dyeability — with zero contamination issues. Our client base includes weaving mills, garment manufacturers, and fabric exporters across the region.

With our expansion into **fabric manufacturing** through in-house sizing and weaving, we are capable of delivering **100% cotton fabrics** based on buyer-specific constructions. Our fabric unit is under development, and we will produce fabric using 20s x 20s yarn as the base, fully customized to meet each buyer's construction requirements such as GSM, width, and finish.

VISION

To be a leading manufacturer of superior-quality 100% cotton yarn and fabric, contributing to the global textile supply chain with integrity and innovation.

Vision & Mission

MISSION

- To deliver high-quality, contamination-free 100% cotton yarn and fabric.
- To offer the best pricing without compromising quality.
- To expand into global import and export markets.
- To ensure timely service, reliability, and customer satisfaction.
- To grow with in-house fabric production tailored to buyer needs.

Core Strengths

SESHAS'S
TEXTILES

Over 10 Years Experience– Trusted by leading weaving units and exporters.

100% Cotton Yarn & Fabric– Ensures strength, softness, and consistency.

Zero Contamination Policy– Advanced cleaning systems for export-grade quality.

Consistent CSP Strength– Ideal for high-speed weaving and dyeing applications.

Buyer-Specific Customization– Count, construction, and finish tailored to order.

In-House Sizing & Weaving– Integrated fabric production for quality control.

Transparent Pricing– Competitive rates with no hidden costs.

Timely Delivery– Robust logistics and supply chain planning.

Export Ready– Infrastructure and compliance for global supply.

Infrastructure & Manufacturing Process

**SESHAS'S
TEXTILES**

YARN PRODUCTION

- Blow Room to Packing – Fully in-house manufacturing
- Machine Types – SN & RN
- Contamination Cleaning – Installed with foreign fiber removal and clearing systems
- Packing – Standard 60 kg cone bags

FABRIC MANUFACTURING

- In-house Sizing & Weaving Unit
- Production Base – 20s x 20s cotton yarn
- Widths Available – 40" & 63"
- Customization – As per Reed, Pick, GSM, and Finish required by buyers
- Final Packing – Ready for domestic and export

Product Portfolio

SESHAS'S
TEXTILES

WE SPECIALIZE IN GREY OE YARN IN THE FOLLOWING COUNTS:

| Specification | 10s Count | 20s Count |
|----------------------|--------------------|--------------------|
| Machine Type | SN & RN | SN & RN |
| Blend | 100% Cotton | 100% Cotton |
| Color | Grey | Grey |
| Dyeing Guarantee | 100% | 100% |
| CSP (Count Strength) | 1200+ | 1100+ |
| Average Count | 9.5+ | 19.5+ |
| Yarn per Kg | 1.500 to 1.800 KGS | 1.500 to 1.800 KGS |
| Cone Bag Weight | 60.00 Kgs | 60.00 Kgs |

Additional Counts: 6s, 8s, 12s, 30s (as per client requirements)

Fabric Division

SESHAS'S
TEXTILES

Vertical Integration: Yarn to fabric – full in-house process including sizing, weaving, and packing.

Grey Focus: 100% grey cotton fabric (no color, no blends) ideal for dyeing and printing.

Reliable Quality:

- Guaranteed dyeability
- Zero contamination
- Standardized constructions based on client needs

Custom Orders: All fabric constructions are customized as per buyer purchase order (PO) and may include:

- Reed
- Pick
- Width (inches/mm)
- GSM
- Finish

Supply & Export:

- Domestic and Export-ready
- Timely delivery with bulk capacity

Quality Control & Testing

SESHAS'S
TEXTILES

At Seshas's Textiles, we follow strict quality protocols at every stage – from cotton selection to final fabric dispatch – ensuring consistency, strength, and contamination-free output.

YARN QUALITY CONTROL

- **Raw Cotton Testing:** Checked for trash %, staple length, and micronaire.
- **Contamination Removal:** Advanced fiber cleaners and vision-based systems eliminate foreign particles.
- **Lab Tests:** Every lot is tested for CSP, evenness, neps, and moisture.
- **Packing QC:** Each cone is weighed, labeled, and moisture-controlled before dispatch.

FABRIC QUALITY CONTROL

- **Sizing QC:** Monitored for stretch, starch uniformity, and adhesion.
- **Weaving Checks:** Real-time defect detection and manual loom inspections.
- **Final Fabric Inspection:** 4-point system checks reed/pick, GSM, width, and defects.
- **Roll Packing:** Rolls are tagged, wrapped, and stored with full traceability.

We provide consistent, tested yarn and fabric, ready for both domestic and export markets.

Why choose us

SESHAS'S
TEXTILES

Uncompromising Quality: We follow strict quality checks to ensure every cone and fabric roll is uniform, strong, and contamination-free—meeting export-grade standards.

Guaranteed Dyeability: Our 100% cotton yarn and grey fabric offer excellent dye absorption for both reactive and vat processes—ensuring vibrant, even finishes.

Zero Contamination: Advanced cleaning and inspection systems eliminate foreign particles, making our yarn and fabric safe for high-end dyeing applications.

Buyer-Specific Customization: We customize yarn count, CSP, fabric GSM, width, and construction based on buyer requirements.

Yarn to Fabric – In-House: With integrated sizing and weaving, we control quality and ensure faster delivery for both yarn and fabric.

Fair Pricing & On-Time Delivery: We offer competitive rates with transparent costing and a strong track record of timely dispatch.

Export-Ready Setup: Fully equipped to serve both domestic and international markets with compliant packaging and documentation.
